## PROFILE

Farhan Ahmad, having completed a Diploma in Computer Applications, is currently an undergraduate pursuing a B.Sc. in Forensic Science. With a strong interest in applying analytical and problem-solving skills to real-world investigations, he has built a solid foundation in computer operations. He achieved First Division in school and is fluent in Hindi, with intermediate English communication skills. Eager to begin his professional journey, he is looking to contribute his skills and knowledge to a suitable role.
