Raigarh, Chhattisgarh 496001 | +91 9109325767 | [linkedin.com/in/tejesh256p](#) | [tejesh.patel256@gmail.com](mailto:tejesh.patel256@gmail.com)

## PROFESSIONAL SUMMARY

Passionate about crafting impactful software solutions with a strong foundation in computer applications and development. Skilled in designing and building web and desktop applications, with hands-on experience in solving real-world challenges through academic and personal projects. Currently exploring SAP ABAP and AI-ML, while staying curious about emerging technologies. I thrive on turning ideas into well-structured systems and enjoy collaborating to create solutions that are practical, efficient, and future-ready.

## SKILLS

### Technical Skills

- Web Development: HTML5, CSS3, JavaScript, PHP
- Programming: Python, C++, C (DSA), Java
- Tools & Technologies: MySQL, XAMPP, GitHub, VS Code, Microsoft 365
- Additional: Typing 70+ WPM, Basic AI Concepts, System Troubleshooting

### Soft Skills

- Leadership
- Active Listening
- Effective Communication
- Team Collaboration

## WORK HISTORY

07/2025 - 09/2025

### SAP ABAP Trainee (Backend Development in Enterprise Operations)

#### Jindal Steel & Power

- Gaining hands-on exposure to SAP ABAP development, including SmartForms, Reports, and Data Dictionary.
- Learning to analyze business requirements and translate them into efficient technical solutions.
- Collaborating with mentors and team members to understand real-world SAP implementations in an enterprise environment.
- Strengthening knowledge of debugging, performance optimization, and modular programming within SAP systems.
- Building problem-solving skills by working on practical scenarios in ERP modules.
- Developing a strong foundation in both technical programming and business process understanding.

01/2025 - 03/2025

### CUSTOMER SERVICE EXECUTIVE

#### SQUARE BUSINESS SERVICE , NAYA RAIPUR

- Assisted customers via voice process by addressing queries, resolving issues, and ensuring customer satisfaction.
- Handled high-volume inbound and outbound calls with professionalism and efficiency.
- Developed strong communication and active listening skills to understand and meet customer needs.
- Maintained accurate records of customer interactions and provided timely updates.
- Worked collaboratively with team members to achieve performance targets and service quality standards.

## EDUCATION

2023 - Present | Pursuing

### Bachelor of Computer Applications (Artificial Intelligence and Machine Learning)

Kalinga University, Raipur, Chhattisgarh

Mar 2023 | Completed

### Senior Secondary (12th), Commerce

O.P. Jindal School, Raigarh, Chhattisgarh | 67%

Mar 2021 | Completed

### Secondary (10th)

O.P. Jindal School, Raigarh, Chhattisgarh | 65%

## CERTIFICATES

- Cyber War 2023 – Participation Certificate [iNurture]: [\[View Certificate\]](#)
  - Programming Basics – Great Learning: [\[View Certificate\]](#)
  - Python for Beginners – Great Learning: [\[View Certificate\]](#)
  - C Programming – Great Learning: [\[View Certificate\]](#)
- 

## PROJECT

- Amazon (E-commerce) Clone
  - Technologies: HTML, CSS
  - Description: Designed and built a front-end clone of Amazon's homepage with responsive layout, product cards, navigation bar, and hover effects to simulate real-world e-commerce UI.
  - Live Demo: [View Project](#)
  - GitHub: [View Project](#)
- Classic Games (Tic-Tac-Toe & Stone-Paper-Scissors)
  - Technologies: HTML, CSS, JavaScript
  - Tic-Tac-Toe: Created a two-player web-based game with winning logic and restart functionality.
  - Stone-Paper-Scissors: Designed an interactive game where users play against the computer with randomized outcomes and score tracking.
  - Stone-Paper-Scissor: [Live Demo](#) | [GitHub](#)
  - Tic-Tac-Toe: [Live Demo](#) | [GitHub](#)
- Jarvis (Desktop Assistant)
  - Technologies: Python
  - Description: Developed a voice-activated desktop assistant that can perform tasks like opening apps, searching the web, and playing music using Python libraries such as speech\_recognition and pyttsx3.
  - GitHub: [View Project](#)
- Conversational ChatBot
  - Technologies: Python
  - Developed a basic rule-based chatbot capable of responding to simple greetings and small talk (e.g., "Hi", "Hello", "How are you"). Designed as an entry-level project to understand chatbot logic and user interaction.
  - GitHub: [View Project](#)
- Student Management System
  - Technologies: Java (NetBeans)
  - Built a desktop application using Java and NetBeans to manage student records including add, update, delete, and search functionalities. Focused on object-oriented programming and file-based data handling.
  - GitHub: [View Project](#)
- Form Submission System
  - Technologies: HTML, PHP, XAMPP
  - Description: Created a web-based form that collects user input and stores it in a MySQL database. Used XAMPP as a local server environment to manage PHP and database interactions.
  - GitHub: [View Project](#)
